**Eye** Hold eyelids apart and flush continuously with water. Continue until advised to stop by the Poisons Information Centre, a doctor, or for at least 15 minutes. Keep patient calm.

**Inhalation** Leave exposure area immediately. If assisting a victim avoid becoming a casualty, wear a Full-face Type B (Inorganic and acid gas) respirator or an Air-line respirator where an inhalation risk exists. If victim is not breathing apply artificial respiration and seek urgent medical attention.

**Skin** Remove contaminated clothing and gently flush affected areas with water. Continue to flush with water until skin no longer feels soapy. Seek medical attention. Launder clothing before reuse.

**Ingestion** DO NOT induce vomiting. Immediately wash out mouth with water, and then give water to drink. Seek medical attention. For advice, contact the Poisons Information Centre on 13 11 26 (Australia Wide) or a doctor.

**6. ACCIDENTAL RELEASE MEASURES**

**Spillage** If spilt, absorb with sand or similar. Wear splash-proof goggles and PVC/rubber gloves. For large amounts, wear coveralls and rubber boots. Collect and place in sealable containers for disposal. Caution: Spill site may be slippery.

---

**7. STORAGE AND HANDLING**

**Storage** Store in cool, dry, well ventilated area, removed from direct sunlight, oxidising agents (eg. hypochlorites), acids and foodstuffs. Ensure containers are adequately labelled, protected from physical damage and sealed when not in use. Check regularly for leaks or spills. Keep from freezing.

**Handling** Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas (eg. if container is damaged).

---

**8. EXPOSURE CONTROLS / PERSONAL PROTECTION**

**Ventilation** Use with adequate natural ventilation. Open windows and doors where possible. In poorly ventilated areas, mechanical extraction ventilation is recommended. Maintain vapour levels below the recommended exposure standard.

## 10. STABILITY AND REACTIVITY

---

**Reactivity** Incompatible with oxidising agents (eg. peroxides) and acids (eg. hydrochloric acid).  
**Decomposition Products** May evolve toxic gases if heated to decomposition.

---

## 11. TOXICOLOGICAL INFORMATION

---

**Health Hazard Summary** This product has the potential to cause adverse health effects with eye contact or prolonged skin contact. Due to the low vapour pressure of this product an inhalation hazard is not anticipated with normal use. Use safe work practices to avoid direct eye or skin contact and vapour/ mist generation-inhalation.

**Eye** Exposure may result in lacrimation, pain, redness and possible corneal burns with prolonged contact.

**Inhalation** Over exposure may result in irritation of the nose & throat with coughing, nausea and headache. Low vapour pressure reduces the inhalation hazard.

**Skin** Prolonged and repeated contact may result in irritation, skin rash, dermatitis, blisters and burns.

**Ingestion** Ingestion may result in ulceration to the mouth and throat with nausea and vomiting.

**Toxicity Data** POTASSIUM HYDROXIDE (1310-58-3)  
LD50 (Ingestion): 273 mg/kg (rat)  
SODIUM SILICATE (1344-09-8)  
LD50 (Ingestion): 1100 mg/kg (mouse)

## 12. ECOLOGICAL INFORMATION

---

**Environment** WATER: If released to waterways, alkaline products may change the pH of the waterway. Fish will die if the pH reaches 10-11 (goldfish 10.9, bluegill 10.5). SOIL: May leach to groundwater with toxic effects on aquatic life as above. ATMOSPHERE: Not expected to reside in the atmosphere. Drops or particles released to atmosphere should be removed by gravity and/or be rained out.

---

## 13. DISPOSAL CONSIDERATIONS

---

**Waste Disposal** For small amounts absorb with sand, vermiculite or similar and dispose of to an approved landfill site. Contact the manufacturer for additional information if larger amounts are involved. Prevent contamination of drains and waterways as aquatic life may be threatened and environmental damage may result.

**Legislation** Dispose of in accordance with relevant local legislation.
